About Homoeopathy

Homoeopathy is a scientific system which has been used successfully for over 200 years.

It is used extensively around the world and is favored by the royal Family.

Homoeopathy is an holistic way of healing which works with the natural tendency of the body to restore health. It works by stimulating these healing powers to overcome disease.

We call our medicines remedies and they are derived from natural substances and are prepared in specialist pharmacies.

Remedies are safe and easy to take in tablet form or liquids.

Remedies can be taken along side other medication given by your doctor if necessary. They can be taken to help the healing process after surgery or child birth.

Homoeopathic remedies cannot cause Side effects and you cannot become addicted to them.

Your first appointment

My aim is to find a suitable remedy for you chosen to match your symptoms. To help me to do this I need to know as much about you as possible.

We will discuss all aspects of your health including your hopes, plans, likes, dislikes and other general aspects which may be relevant.

There will be time for you to ask questions about your treatment. This initial meeting will usually take almost two hours.

I will then aim to post out your remedy within a few days. This allows me time to work out the correct remedy for you.

Follow up consultations are usually made four to six weeks after your first appointment.

All consultations are strictly confidential.
